I understand that my personal insurance is primary coverage for all accidents and injuries incurred when I drive my vehicle or when my vehicle is used. I understand the school's insurance does not cover my vehicle or me, only students on a required field trip and students participating in official after-school activities, such as athletics, etc. I also understand that any other children of parent drivers are not covered by the school's insurance; they are only covered by the driver's insurance.

By law, each child MUST have a seat belt and booster seat, if applicable. MCS specifies that only the driver's child may sit in a front seat with an airbag. Students may not sit in rear-facing seats at any time. Please view the following links for more information:
